Summary

I'm an accomplished physicist teacher with a passion for analytical problem-solving and a drive to apply expertise in data science. Possessing a solid foundation in mathematical modeling, statistical analysis, and experimental research methodologies, I am now eager to embark on a rewarding journey within the field of data science.

As a seasoned educator, I have exceptional communication skills and a keen ability to simplify complex concepts into accessible, engaging lessons. My experience in guiding students through intricate scientific principles has equipped me with a unique perspective in approaching real-world challenges.

Seeking to leverage my strong academic background and pedagogical proficiency, I am determined to transition into data science to explore and obtain insights from vast datasets. I am proficient in Python and SQL and adept at data manipulation, visualization, and predictive modeling.

Experience

Teacher Manager

Fractal Monitorias • Bogotá D.C, Cundinamarca
01/2016 - 07/2023

Physics Teacher

Universidad de los Andes • Bogotá D.C, Cundinamarca
01/2018 - 12/2019

Skills

Communication skills, Python, SQL, Statistical Analysis, Machine Learning, Data Manipulation, Data Analysis Skills, Pandas, Numpy, Django, Database Management, Natural Language Processing, Jupyter Notebook, Git

Education

Applied Data Science with Python Specialization

University of Michigan-Coursera
07/2023

Django for Everybody Specialization

University of Michigan-Coursera
06/2023

Physics with math minor

Universidad de Los Andes • Bogotá D.C, Cundinamarca
06/2016

Languages

Spanish, English, Italian
